SUMMARY FORMAT

The summary of the work must be attached in the registration FORM with the following format:

- Program: Microsoft Word for Windows (do not attach file in PDF)
- Typeface: Arial of 12 points
- Line spacing and margins: Simple space, with margins of 2.0 cm. one side each
- Title of the work: Bold, in upper and lower case, without end point with a maximum length of 100 characters (15 words)
- Authors: Surname (s) and full name (s) without abbreviations. The number of authors per summary may not exceed six. In this same section, highlight in bold type the name of the author who will expose the work, in the case of being a student is indicated in his report as "Bachelor student" or "Postgraduate student". No endpoint
- Origin: Provide in the header only the full name of the department faculty and later the acronyms of the Institution or Company. If you have more than one institution at work, relate authors to institutions or companies with a number in a superscript. Use a number by Institution or Company
- The maximum length of the summary of the work will be 300 words, including: Introduction, objective, material and method, results, and conclusions; without indicating each section in the body of the document
References, images or notes should not be included
- Use italics for names of medications and names in Latin. Do not use upper case or bold to highlight names
- Abstracts that DO NOT COMPLY with any of the indicated points will be rejected. The modality for the presentation can be in the poster, or in the oral presentation and you must specify your preference during the registration.
