# BIOMEDICAL REVIEWS

An International Journal of Cell Biology of Disease

Volume 30, 2019

## Editor-in-Chief

George N. Chaldakov, MD, PhD, FIACS

## Scope and Purpose

**Biomedical Reviews** (ISSN 1314-1929; online) is an official journal of the Bulgarian Society for Cell Biology published by the Medical University Press, Varna, Bulgaria. The Journal is published annually, and includes state-of-the-science (SOS) Reviews, Research Articles and Dance Round (a form of position papers) focused on disease-oriented molecular cell biology presented in concise form.

## Editorial Policy

Contributors to **Reviews** as well as **Dance Rounds** and **Research Articles** are, in general, invited by the Editors and the Editorial Board, but idea proposals for them are welcome. Prospective authors should send a brief summary, citing key references, including their own, to the Editors or a member of the Editorial Board. Submission of full-length articles without prior consultation is not preferred. Manuscripts are peer-reviewed by the Editors, Editorial Board members, and/or external experts before final decisions regarding publication are made. All material in *Biomedical Reviews* represents the opinions of the authors and does not reflect opinions of the Bulgarian Society for Cell Biology, the Medical University, Varna, Bulgaria, the Editors, the Editorial Board, or the institutions with which the authors are affiliated.

Publication of *Biomedical Reviews* is truly a collaborative process. We appreciate the brain-and-heart partnership having with our authors and are committed to further maintaining the excellence of the Journal.

III	Editor's foreword
	<b>Reviews</b>
1	Designing an ideal 3D-bioprint conduit for axonal repair and regeneration: A neurosurgical perspective <i>Caleb Stewart, Chin Fung Kelvin Kan, Doan Nguyen, and Olawale Sulaiman (Australia, USA)</i>
15	Cell-cell communication predicts aging, senescence and death: An integrated, predictive evolutionary approach <i>John S. Torday (USA)</i>
	<b>Commentary</b>
23	Torday's prognosis for aging and mortality: <i>More evolution and better life!</i> <i>Kelath Murali Manoj (India)</i>
	<b>Reviews</b>
25	Modeling traumatic brain injury: mechanisms of early neuronal and axon degeneration in the infant rodent brain <i>Krikor Dikranian (USA)</i>
37	Immunity and resistance to cryptosporidiosis: the intricate ways of an enigmatic parasitosis <i>Kalina Stoyanova and Stoyan Pavlov (Bulgaria)</i>
49	The role of selenium and zinc in allergic hypersensitization in children <i>Halyna Pavlyshyn and Viktoriia Slyva (Ukraine)</i>
63	Morphological and neurochemical plasticity of rat mesencephalic trigeminal neurons <i>Angel D. Dandov, Dimitrinka Y. Atanasova and Nikolai E. Lazarov (Bulgaria)</i>
83	Galectin-3: multiple clinical applications <i>Antoniya Kisheva and Yoto Yotov (Bulgaria)</i>
	<b>Perspective</b>
89	2020: Murburn concept heralds a new era in cellular bioenergetics <i>Daniel Andrew Gideon, Vivian David Jacob, and Kelath Murali Manoj (India)</i>
	<b>Research Article</b>
99	Acute stimulation of vagus nerve modulates brain neurotrophins, and stimulates neuronal plasticity in the hippocampus of adult male rats <i>Pamela Rosso, Marco Fiore, Elena Fico, Angela Iannitelli, and Paola Tirassa (Italy)</i>
111	Ultrastructure study of the transgenic Ren2 rat aorta – Part 2: media, external elastic lamina, and adventitia <i>Melvin R Hayden, James R Sowers, and Vincent G DeMarco (USA)</i>
125	Motivational enhancement therapy versus cognitive behavioral therapy in a cohort of men and women with alcohol use disorder <i>Giovanna Coriale, Francesca De Rosa, Gemma Battagliese, Simona Gencarelli, Marco Fiore, Giampiero Ferraguti, Mario Vitali, Claudia Rotondo, Marisa Patrizia Messina, Maria Luisa Attilia, and Mauro Ceccanti (Italy)</i>
	<b>Dance Round</b>
136	The fibrous cap: A promising target in the pharmacotherapy of atherosclerosis <i>Stanislav Yanev, Maria D. Zhelyaskova-Savova, and George N. Chaldakov (Bulgaria)</i>
	<b>Continuing Medical Education</b>
143	Biomorphogenic principles of cell-matrix biology: A plectics insight <i>George N. Chaldakov (Bulgaria)</i>
149	Instructions to authors
